

PecoBead 150™

Copolymer Beads

Oil & Gas Drilling Fluids / OBM & WBM

PecoBead 150™ lubricant additive is a proprietary blend of highly active copolymer beads in an environmentally friendly carrier fluid. It is used as a drilling fluid lubricant where ease of addition is needed and prevents the possibility of spillage of dry beads at the rig floor as a possible safety benefit.

PROPERTIES, TYPICAL

Appearance..... Blue, Slightly Viscous Suspension
Specific Gravity, g/cc 0.98
Sieve Analysis (pulverized) 100% passing 80 mesh
1%pH, 90/10 HOH:IPA 5.9
Bead Size, μ 150 - 1000

APPLICATION

Drilling Fluid: where the copolymer is added to the drilling mud for enhanced lubrication in difficult rock formations and in horizontal drilling

PACKAGING AND HANDLING

PecoBead 150™ lubricant is available in 40# PAIL / 32
